I am excited to share valuable learning opportunities, especially for aspiring tech enthusiasts looking to delve into Machine Learning and Artificial Intelligence. 🚀

1. **Introduction to Artificial Intelligence with Python**
   Link to Course

2. **Data Science: Machine Learning** Link to Course

3. **High-dimensional Data Analytics** Link to Course

4. **Computer Science for Business Professionals** Link to Course

5. **Statistics and R** Link to Course

For those on Coursera, you can audit these courses for free:

6. **RICE - Introduction to Data Analysis with Excel**
   Link to Course

7. **Johns Hopkins – Advanced Statistics for Data Science Specialization** Link to Specialization

🎓 Join me in this learning journey and let's grow together! If you're keen on more free courses, drop your suggestions in the comments. Best of luck to all tech learners out there! 🌟

For continuous learning materials, check out my previous posts. Cheers, Ankit Gupta
